		L	The Bulgarian steamship BULGARIYA entered the port at 1730 hours on 8 September.

	S.F.C.R.E.F
	<u>r</u> t
I.	Three floating dry docks, two of which could dock 3,000 to 5,000-ton ships. The two large docks were occupied by a freighter and the tanker IOSIF STALLN, respectively. The smaller dry dock was empty.
L.	Training vessel DUNAY
Μ.	Two medium-tonnage submarines berthed stern-to the quay.
N.	At 1400 hours on 9 September, the tanker IOSIF STALIN left the dry dock and proceeded to the petroleum pier for loading at this berth.
0.	Large dredge and two steam barges working in the vicinity of the north exit. The two barges were approximately 1,000 tons each. The barges transported the excavated material out to sea.
Ρ.	Three concrete caissons situated about a hundred meters apart.

-	The shops in the town were already closed because of the late hour, and the streets were almost deserted. The International Club was situated on the second floor of an old palace. In the fover there was a silded oust of Stalin.
	the Club had several well-furnished large rooms decorated with portraits of Russian revolutionaries. the Club theater where a short documentary on the Geneva Conference, and a black-and-white film in Russian entitled "The Dancing Master," adapted from the work of the same name by Lope de Vega, were shown. The actors were medicare. The engineer Kossinskiy courteously translated the dialogue Some 20 persons, including some women, were in the audience. The engineer stated that this was a group of foreign language students. A young woman simultaneously translated the dialogue into German through a loudsneaker.
	no servicemen in the city, other than a number of well-dressed sailors accompanied by girls. There were no military exercises of any kind during his stay in Olessa.
	On the morning of 11 September, after the letter of credit arrived, the ship received orders to leave. The checking procedure at departure time lasted only a few minutes and was a formality. At 1000 hours, with the pilot aboard, the ship left its worth and headed-out of the inner harbor. The battleship described in Paragraph 3 was still anchored in the outer harbor and answered the regulation salute at once
	Comment: There is no record of a Soviet ship by this
	Comment. This ship was probably the SEVASTOPOL, an old
